

METEOR 250 Gen3

DIAMOND GRINDER

The Meteor 250mm Gen3 Diamond Grinder is our single disc floor grinder and edge grinding/polishing machine.

Contractors need an aggressive and compact edger grinder for small areas of grinding, glue removal or prep for tilers.

Floorex® has solved this with the Meteor 250 Gen3. This little beauty is compact and easy to store, and loads into a Ute or van easily. It has no belts and pulleys, so all the power is available at the 250mm (10") disc.

Meteor 250 Gen3 gets within 20mm of walls with the close fitting shroud, or within 2mm with optional Edger Shroud.

Our new patented "Auto-Level" design means you don't have to adjust the axle height as the diamond disc wears. This also means less stress on the unique spider coupling.

Excellent for small areas on both commercial and domestic projects, glue removal and levelling high spots. Meteor 250 Gen3 can also use 175mm or 250mm PCD Diamond discs for glue & coating removal and Polishing Pads for producing polished concrete.

Our unique 'Spider' flexible coupling is the heart of the Meteor. This coupling ensures even disc wear, easy on operator, and best of all, excellent surfaces without gouges or ridges.

Edger Shroud

Straight Line Wheel Kit

- Grinding
- Polishing
- Buffing
- Concrete Removal
- Levelling
- Cleaning
- Glue Removal
- Re-surfacing
- Ceramic Tile Prep

MET-250 Gen3	250mm Single Disc Grinder - 240 volt
