Following cleaning, the equipment should be left to dry thoroughly hanging freely in a position where it will not be exposed to excessive heat or steam.

STORAGE

Harnesses and Lanyard Assemblies need to be stored in a clean, cool, dry area free of chemical fumes or corrosive elements.

Never store in areas where there is direct sunlight. Preferably, equipment should, when not required for use, be kept in properly designed cabinets which permit ventilation.

In making provision for storage, it should be kept in mind that no part of the equipment be subjected to unnecessary strain, pressure, excessive heat or humidity. During storage, it should not be possible for the equipment to come into contact with sharp implements, corrosives or other likely causes of damage.

For particular and more specific information on selection and maintenance of Equipment consultation of AS/NZS 1891.4 should be undertaken.

Safety Harness Confined Space Plant NO. 1198005

Owners Name:	Kawes Hire Pty Ltd
Product Serial No.:	1304 06 723
Date of Manufacture:	04 - 2013
