6" SUCTION-PAD

- Aluminium housing
- Quick-action lever

- Light and heavy lifting range

SW.L 25 Kg.

The illustrated hand-sucker has a light lifting setting suitable for sheet glass and a heavy setting for plateglass. A remarkable feature of the equipment is its operating lever, which enables to reach vacuum by simply pushing the handle with the lever together. The 6-inch sucker is guaranteed against breakage. Any wearing parts, including the rubber pad, can be obtained ex stock.
